**When and Where I Enter** Paula J. Giddings  
2009-10-06 “History at its best—clear, intelligent, moving. Paula Giddings has written a book as priceless as its subject”—Toni Morrison Acclaimed by writers Toni Morrison and Maya Angelou, Paula Giddings’s *When and Where I Enter* is not only an eloquent testament to the unsung contributions of individual women to our nation, but to the collective activism which elevated the race and women’s movements that define our times. From Ida B. Wells to the first black Presidential candidate, Shirley Chisholm; from the anti-lynching movement to the struggle for

suffrage and equal protection under the law; Giddings tells the stories of black women who transcended the dual discrimination of race and gender—and whose legacy inspires our own generation. Forty years after the passing of the Voting Rights Act, when phrases like “affirmative action” and “wrongful imprisonment” are rallying cries, Giddings words resonate now more than ever.

*Slavery and Plantation Growth in Antebellum Florida 1821-1860* Julia Floyd Smith 2018-02-20 The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American

and Caribbean studies titles that connect in and through Florida, highlighting the connections between the Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area in prior to the twentieth century, making it accessible for scholars and the general public alike.

**Still Lives** Maria Hummel 2018-06-05  
Twelve shocking paintings. Eleven famous murders. One missing artist . . . and one woman driven to find her—this Reese's Book Club x Hello Sunshine Selection is a “stunning achievement” (Los Angeles Times). Kim Lord is an avant-garde figure, feminist icon, and agent provocateur in the L.A. art scene. Her groundbreaking new exhibition *Still Lives* is comprised of self-portraits depicting herself as famous, murdered women—the Black Dahlia, Chandra Levy, Nicole Brown Simpson, among many others—and the works are as compelling as they are disturbing, implicating a culture that is too accustomed

to violence against women. As the city's richest art patrons pour into the Rocque Museum's opening night, all the staff, including editor Maggie Richter, hope the event will be enough to save the historic institution's flailing finances. Except Kim Lord never shows up to her own gala. Fear mounts as the hours and days drag on and Lord remains missing. Suspicion falls on the up-and-coming gallerist Greg Shaw Ferguson, who happens to be Maggie's ex. A rogue's gallery of eccentric art world figures could also have motive for the act, and as Maggie gets drawn into her own investigation of Lord's disappearance, she'll come to suspect all of those closest to her. Set against a culture that often fetishizes violence, *Still Lives* is a page-turning exodus into the art world's hall of mirrors, and one woman's journey into the belly of an industry flooded with money and secrets. "It's a thrilling mystery that will leave you

*/event/clark Quarles Groom/ upload Suny z Murray*

wondering which characters you can and can't trust . . . There's a twist at the end that still keeps us up at night, it's THAT good." —Reese Witherspoon (A Reese's Book Club x Hello Sunshine Selection)  
[The Cambridge Handbook of Animal Cognition](#) Allison B. Kaufman 2021-07-22  
This handbook lays out the science behind how animals think, remember, create, calculate, and remember. It provides concise overviews on major areas of study such as animal communication and language, memory and recall, social cognition, social learning and teaching, numerical and quantitative abilities, as well as innovation and problem solving. The chapters also explore more nuanced topics in greater detail, showing how the research was conducted and how it can be used for further study. The authors range from academics working in renowned university departments to those from research

institutions and practitioners in zoos. The volume encompasses a wide variety of species, ensuring the breadth of the field is explored.

*The School of Essential Ingredients* Erica Bauermeister 2010-01-05 From the author of Reese Witherspoon's Book Club pick *The Scent Keeper* comes a "heartbreakingly delicious" national bestseller about a chef, her students, and the evocative lessons that food teaches about life. Once a month on a Monday night, eight students gather in Lillian's restaurant for a cooking class. Among them is Claire, a young woman coming to terms with her new identity as a mother; Tom, a lawyer whose life has been overturned by loss; Antonia, an Italian kitchen designer adapting to life in America; and Carl and Helen, a long-married couple whose union contains surprises the rest of the class would never suspect. The students have come to learn the art behind Lillian's

soulful dishes, but it soon becomes clear that each seeks a recipe for something beyond the kitchen. And soon they are transformed by the aromas, flavors, and textures of what they create....

**The Ash Warriors** C. R. Anderegg 2000 In November 1991 the American flag was lowered for the last time at Clark Air Base in the Philippines. This act brought to an end American military presence in the Philippines that extended back over 90 years. It also represented the final act in a drama that began with the initial rumblings in April of that year of the Mount inatubo volcano, located about nine miles to the east of Clark. This book tells the remarkable story of the men and women of the Clark community and their ordeal in planning for and carrying out their evacuation from Clark in face of the impending volcanic activity. It

documents the actions of those who remained on the base during the series of Mount Pinatubo's eruptions, and the packing out of the base during the subsequent months. This is the story of the Ash Warriors, those Air Force men and women who carried out their mission in the face of an incredible series of natural disasters, including volcanic eruption, flood, typhoons, and earthquakes, all of which plagued Clark and the surrounding areas during June and July 1991.

in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

*Crimson Snow* Martin Edwards 2017-01-03  
Mystery crime fiction written in the Golden Age of Murder "Edwards's second winter-themed anthology in the British Library Crime Classics series is a standout. As in the most successful of such volumes, the editor's expertise results in a selection of unusual suspects, expanding readers'

*/event/clark Quarles Groom/ upload Suny z Murray*

knowledge." —Publishers Weekly STARRED review *Crimson Snow* brings together a dozen vintage crime stories set in winter. Welcome to a world of Father Christmases behaving oddly, a famous fictional detective in a Yuletide drama, mysterious tracks in the snow, and some very unpleasant carol singers. There's no denying that the supposed season of goodwill is a time of year that lends itself to detective fiction. On a cold night, it's tempting to curl up by the fireside with a good mystery. And more than that, claustrophobic house parties, with people cooped up with long-estranged relatives, can provide plenty of motives for murder. Including forgotten stories by major writers such as Margery Allingham, as well as classic tales by less familiar crime novelists, each story in this selection is introduced by the leading expert on classic crime, Martin Edwards. The resulting volume is an entertaining and atmospheric

compendium of wintry delights.  
*Frank Bowling: London / New York*  
2021-07-20 Fifty years of Bowling's adventures in abstraction, with archival studio shots and a conversation with the artist's family A survey of Frank Bowling's (born 1936) abstract painting practice of the last 50 years, *Frank Bowling: London / New York* published on the occasion of concurrent exhibitions by the artist at Hauser & Wirth New York and Hauser & Wirth London in summer 2021. Bowling's transatlantic practice in his New York and London studios traces his physical and artistic journeys and his continual reinvention of abstraction on the painted plane. Rich in archival studio shots and with abundant plates of Bowling's canvases, this publication also includes an essay by Mark Godfrey and a conversation between Bowling, his wife, artist Rachel Scott, and his son Ben Bowling, offering the reader an

*Crossing the Rubicon* Michael C. Ruppert 2004-09-15 The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. *Crossing the Rubicon* examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. ### **The Women's Army Corps, 1945-1978**

Bettie J. Morden 2011-10-07 After years out of print, this new and redesigned book brings back the best and most complete history of the Women's Army Corps. Loaded with history, tables, charts, statistics, photos, personalities, and many useful appendices (including a history of WAC uniforms), *The Women's Army Corps, 1945-1978* is must reading for anyone who served those years in the Army as well as for those who want a complete history of the modern-day military. Author Bettie Morden served from 1942-1972 and she used her experience and access to people and records to compile the definitive reference

work. Col. Morden is a graduate of the WAC Officers' Advanced Course (1962); Command and General Staff College (1964); and the Army Management School (1965). She has been awarded the Distinguished Service Medal, the Legion of Merit, the Joint Service Commendation Medal, and the Army Commendation Medal with Oak Leaf Cluster. *Air Force Handbook 1* U. S. Air Force 2018-07-17 This handbook implements AFD 36-22, Air Force Military Training. Information in this handbook is primarily from Air Force publications and contains a compilation of policies, procedures, and standards that guide Airmen's actions within the Profession of Arms. This handbook applies to the Regular Air Force, Air Force Reserve and Air National Guard. This handbook contains the basic information Airmen need to understand the professionalism required within the Profession of Arms. Attachment 1 contains

references and supporting information used in this publication. This handbook is the sole source reference for the development of study guides to support the enlisted promotion system. Enlisted Airmen will use these study guide to prepare for their Promotion Fitness Examination (PFE) or United States Air Force Supervisory Examination (USAFSE).

**The Nature of Difference** Evelyn M. Hammonds 2008 'The Nature of Difference' documents how distinctions between people have been generated in and by the life sciences. **Unequal Freedom** Evelyn Nakano GLENN 2009-06-30 The inequalities that persist in America have deep historical roots. Evelyn Nakano Glenn untangles this complex history in a unique comparative regional study from the end of Reconstruction to the eve of World War II. During this era the

country experienced enormous social and economic changes with the abolition of slavery, rapid territorial expansion, and massive immigration, and struggled over the meaning of free labor and the essence of citizenship as people who previously had been excluded sought the promise of economic freedom and full political rights. After a lucid overview of the concepts of the free worker and the independent citizen at the national level, Glenn vividly details how race and gender issues framed the struggle over labor and citizenship rights at the local level between blacks and whites in the South, Mexicans and Anglos in the Southwest, and Asians and haoles (the white planter class) in Hawaii. She illuminates the complex interplay of local and national forces in American society and provides a dynamic view of how labor and citizenship were defined, enforced, and contested in a formative era for white-nonwhite relations in

### **The Twelve Tribes of Hattie** Ayana

Mathis 2012-12-06 NATIONAL BESTSELLER •

AN OPRAH'S BOOK CLUB 2.0 SELECTION •

"A remarkable page-turner of a novel."

—Chicago Tribune In 1923, fifteen-year-old Hattie Shepherd, swept up by the tides of

the Great Migration, flees Georgia and heads north. This "brutal, illuminating version of the twentieth century African-American experience belongs alongside those of Toni Morrison, Alice Walker and Zora Neale Hurston" (Newsday). A New York Times Notable Book • An NPR Best Book of the Year • A BuzzFeed Best Book of the Year Full of hope, Hattie settles in Philadelphia to build a better life. Instead she marries a man who will bring her nothing but disappointment, and watches helplessly as her firstborn twins are lost to an illness that a few pennies could have prevented. Hattie gives birth to nine more children, whom she raises with grit, mettle, and not an ounce of the tenderness they crave. She vows to prepare them to meet a world that will not be kind. Their lives, captured here in twelve luminous threads, tell the story of a mother's monumental courage—and a nation's tumultuous journey.

A Century of African American Art Amalia K. Amaki 2004 Ten essays that examine four key issues in American art--portraiture and realism in relation to abstract expressionism, the implications of color, the role of narrative, and the concept of multiple originals--come together in this resource on the works of African-American art included in the Paul R. Jones collection. Simultaneous. The Central Intelligence Agency and Overhead Reconnaissance Gregory Pedlow 2016-03-15 The CIA's 2013 release of its book The Central Intelligence Agency and Overhead Reconnaissance 1954-1974 is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs, including names of pilots; codenames and cryptonyms; locations, funding, and cover arrangements; electronic countermeasures equipment; cooperation with foreign

governments; and overflights of the Soviet Union, Cuba, China, and other countries. Originally published with a Secret/No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects, but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down there of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top-secret testing, its specially designed high-altitude cameras and complex life-support systems, and even the possible use of poison capsules by its pilots, if captured. They call attention to the crucial importance of the U-2 in the gathering of strategic and tactical intelligence, as well as the controversies that the program unleashed. Finally, they discuss the CIA's

*/event/clark Quarles Groom/ upload Suny z Murray*

development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs that will bring alive these incredible aircraft and the story of their development and use by the CIA. This edition also includes a new preface by author Gregory W. Pedlow and a foreword by Chris Pocock. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times

**Point Made** Ross Guberman 2014-04 In Point Made, Ross Guberman uses the work of great advocates as the basis of a valuable, step-by-step brief-writing and motion-writing strategy for practitioners. The author takes an empirical approach, drawing heavily on the writings of the nation's 50 most influential lawyers.

**Conviction** Denise Mina 2019-06-18 A true crime podcast sets a trophy wife's present life on a collision course with her secret past in this "blazingly intense" Reese Witherspoon book club pick and New York Times Best Crime Novel of the Year (A. J. Finn). The day Anna McDonald's quiet, respectable life exploded started off like all the days before: Packing up the kids for

school, making breakfast, listening to yet another true crime podcast. Then her husband comes downstairs with an announcement, and Anna is suddenly, shockingly alone. Reeling, desperate for distraction, Anna returns to the podcast. Other people's problems are much better than one's own -- a sunken yacht, a murdered family, a hint of international conspiracy. But this case actually is Anna's problem. She knows one of the victims from an earlier life, a life she's taken great pains to leave behind. And she is convinced that she knows what really happened. Then an unexpected visitor arrives on her front stoop, a meddling neighbor intervenes, and life as Anna knows it is well and truly over. The devils of her past are awakened -- and they're in hot pursuit. Convinced she has no other options, Anna goes on the run, and in pursuit of the truth, with a washed-up musician at her side and the podcast as her

guide. Conviction is "daredevil storytelling at its finest" (NPR's Fresh Air), a breathtaking thriller from one of the most "superbly talented" writers of our time (Hank Phillippi Ryan, bestselling author of Trust Me).

**Hypoparathyroidism** Maria Luisa Brandi  
2015-02-24 Hypoparathyroidism, a condition in which insufficient parathyroid hormone (PTH) is produced to maintain normocalcemia is associated with a variety of acute and chronic symptoms and complications due to hypocalcemia. Replacement therapy utilizing PTH has long been awaited, and this book is new and very timely as it coincides with the publication of results on the role of the PTH molecule in the pharmacological management of this disorder. This advance is sparking renewed interest in hypoparathyroidism, which is attributable to neck surgery in most cases and to inherited disorders in a minority.

*/event/clark Quarles Groom/ upload Suny z Murray*

Hypoparathyroidism has been written by acknowledged experts in the field and provides essential, up-to-date information on the pathology, diagnosis, and treatment of the condition. It opens by addressing in detail the anatomy and physiology of the parathyroids and describing the epidemiology and clinical presentation of hypoparathyroidism. The full range of hypoparathyroid disorders are then discussed, including the various genetic forms, postoperative hypoparathyroidism, and other forms of acquired hypoparathyroidism. Individual chapters focus on refractory disease, the impact of the condition on bone, and the management of acute hypocalcemia. Both conventional treatment for hypoparathyroidism and the novel replacement therapy with PTH peptides are then thoroughly examined. Pseudohypoparathyroidism is also extensively discussed, with information on

the various forms, differential diagnosis, and genetic testing. This book will be of interest to all endocrinologists, and also to surgeons and internal medicine physicians.
