Legoland Jacob Richmond 2009 Siblings embark on a wild road trip in this vaudeville-inspired one-act play. Cast of 1 woman and 1 man.

Primary Angioplasty Timothy J Watson 2018-07-13 This book is open access under a CC BY 4.0 license. This quick-reference handbook offers a concise and practical review of key aspects of the treatment of ST-segment elevation myocardial infarction (STEMI) in the era of primary percutaneous coronary intervention (PPCI). In the context of STEMI, PPCI is the preferred mode of emergency revascularization. Access to PPCI is rapidly increasing and is now routinely practiced in both general and specialist hospitals and there has been a recent emphasis on developing STEMI networks to enhance and expedite the referral pathway. This coupled with concurrent developments to enhance the safety and efficacy of the PPCI procedure has heralded an era where STEMI interventions are increasingly considered an important subspecialty within interventional cardiology. Written by leading cardiologists who

have been instrumental in the adoption of PPCI in their respective institutions, the book provides junior and senior cardiologists alike with insightful and thought-provoking tips and tricks to enhance the success of PPCI procedures, which may in turn translate into direct improvements in outcomes. The book is also relevant for healthcare providers and emergency department physicians.

Satchmo at the Waldorf Terry Teachout 2015-01-01 THE STORY: SATCHMO AT THE WALDORF is a one-man, three-character play in which the same actor portrays Louis Armstrong, the greatest of all jazz trumpeters; Joe Glaser, his white manager; and Miles Davis, who admired Armstrong's playing but disliked his onstage manner. It takes place in 1971 in a dressing room backstage at the Empire Room of New York's Waldorf-Astoria Hotel, where Armstrong performed in public for the last time four months before his death. Reminiscing into a tape recorder about his life and work, Armstrong seeks to come to terms with his longstanding relationship with Glaser, whom he once loved like a father but now believes to have betrayed him. In alternating scenes, Glaser defends his controversial decision to promote Armstrong's career (with the help of the Chicago mob) by encouraging him to simplify his musical style, while Davis attacks Armstrong for pandering to white audiences.

O Josephine Jason 2019-06-05 Jason has caught the hiking bug and decides to walk the Wicklow Way, where he encounters more sheep than he had bargained for. Leonard Cohen's storied life has been well archived, but never with so many Jason-esque liberties taken. (Did you know he beat Fidel Castro in chess? Learned the Heimlich from Federico Garcia Lorca?) Two detectives are on a mysterious stakeout, but as secrets and motives are revealed their snooping becomes fatal. And, finally, the remarkable rollercoaster love story of Napoleon and Josephine Baker.

Into Every Generation a Slayer Is Born Evan Ross Katz 2022-03-15

Explore the history and cultural impact of a groundbreaking television show adored by old and new fans alike: *Buffy the Vampire Slayer*. Over the course of its seven-year run, *Buffy the Vampire Slayer* cultivated a loyal fandom and featured a strong, complex female lead, at a time when such a character was a rarity. Evan Ross Katz explores the show's cultural relevance through a book that is part oral history, part celebration, and part memoir of a personal fandom that has universal resonance still, decades later. Katz—with the help of the show's cast, creators, and crew—reveals that although *Buffy* contributed to important conversations about gender, sexuality, and feminism, it was not free of internal strife, controversy, and shortcomings. Men—both on screen and off—would taint the show's reputation as a feminist masterpiece, and changing networks, amongst other factors, would drastically alter the show's tone. Katz addresses these issues and more, including interviews with stars Sarah Michelle Gellar, Charisma Carpenter, Emma Caulfield, Amber Benson, James Marsters, Anthony Stewart Head, Seth Green, Marc Blucas, Nicholas Brendon, Danny Strong, Tom Lenk, Bianca Lawson, Julie Benz, Clare Kramer, K. Todd Freeman, Sharon Ferguson; and writers Douglas Petrie, Jane Espenson, and Drew Z. Greenberg; as well as conversations with *Buffy* fanatics and friends of the cast including Stacey

Abrams, Cynthia Erivo, Lee Pace, Claire Saffitz, Tavi Gevinson, and Selma Blair. *Into Every Generation a Slayer Is Born* engages with the very notion of fandom, and the ways a show like *Buffy* can influence not only how we see the world but how we exist within it.

News Deserts and Ghost Newspapers Penelope Muse Abernathy 2020-08-15 This report is the fourth on the state of local news produced by the Hussman School of Journalism and Media at the University of North Carolina at Chapel Hill. It measures what has been lost, while also assessing what must be done if we are to nurture and revive a vibrant news landscape in the third decade of the

21st century. The first section of this report, "The News Landscape in 2020: Transformed and Diminished," examines the loss of local news, from the end of 2004--when newspaper advertising, circulation and employment were at, or near, peak levels--to the end of 2019, providing a time-lapsed snapshot of the news landscape before the coronavirus seized control of the economy. It assesses not only the current state of local newspapers, but also that of local digital sites, ethnic news organizations and public broadcasting outlets. The second section, "The News Landscape of the Future: Transformed ... and Renewed?" establishes the need for a reimagining of journalistic, business, technological and policy solutions. Extensive research has established that the loss of local news has significant political, social and economic implications for our democracy and our society. Yet, according to the Pew Research Center, almost three-quarters of the general public remains unaware of the dire economic situation confronting local news organizations. By documenting the transformation of the local news landscape over the past 15 years, and exploring the challenges and potential solutions, we hope this report will raise awareness of the role that all of us can play in supporting the revival of local news. Accompanying this report, is an updated website, usnewsdeserts.com, with more than 350 interactive maps--allows readers to drill down to the county level to understand the state of local media in communities throughout the United States. You will find information on regional and community newspapers--as well as public broadcasting outlets, ethnic media and digital sites.

Song from the Forest Louis Sarno

2015-04-07 As a young man, American Louis Sarno heard a song on the radio that gripped his imagination. With some funding from musician Brian Eno, he followed the mysterious sounds all the way to the Central African rain forest and found their source with the Bayaka Pygmies, a tribe of hunters and gatherers. Nothing could have prepared him for life among the Pygmies, a people legendary for their short stature and musical wealth. Sarno never left. Considered outwardly lazy by some, scrounging, and near alcoholic, the Pygmies Sarno met had seemingly lost all desire to hunt or make music. Only after he had lived with them for some time (on a diet of tadpoles) was he allowed to join them in the rain forest where they still in relative harmony with nature. There Sarno experienced the extraordinary beauty and spiritual sophistication of their culture and the supreme importance of music as the principal means by which they communicate with the rain forest and

its magical spirits. Over the decades Sarno has recorded more than 1,000 hours of unique Bayaka music. He is a fully accepted member of the Bayaka society and married a Bayaka woman. Permanently changed by his experience and captivated by a Bayaka culture, In Song from the Forest Sarno has chronicled his attempt to protect the fragile existence of the Pygmies in an increasingly destructive world. Once, when his son, Samedi, became seriously ill and Sarno feared for his life, he held his son in his arms through a frightful night and made him a promise: "If you get through this, one day I'll show you the world I come from." Now the time has come to fulfill his promise. In a new major documentary film, Sarno tells the story of the Bayaka as he travels with Samedi from the African rain forest to another jungle, one of concrete, glass, and asphalt: New York City. Together, they meet Louis' family and old friends, including his closest friend from college, Jim Jarmusch. Carried by the contrasts between rainforest and urban America, and a fascinating soundtrack, Louis' and Samedi's stories are interwoven to form a touching portrait of an extraordinary man and his son. SONG FROM THE FOREST is a modern epic film set between rainforest and skyscrapers.

Kensington Palace Tom Quinn
2021-01-12 For more than 300 years, Kensington Palace has played host to a colourful cast of kings, queens and assorted aristocratic hangers-on. A stone's throw from the bustling streets of central London, this grand building has served as the stage for some of the most dramatic and bizarre events in the history of the royal family. It was here that the young Queen Victoria was held a virtual prisoner for eighteen years; and it was here that George II installed both his wife and his mistress, giving the latter rooms so damp that there were said to be mushrooms growing on the walls. More recently, the palace has witnessed an extraordinary series of scandals, from Princess Diana's bombshell TV interview with a journalist smuggled into the palace disguised as a salesman, to Prince Harry and Meghan Markle's shock departure – first for Frogmore Cottage, and then for America – amid rumours of a rift with William and Kate. With exclusive interviews with palace staff past and present, fascinating historical details and a fully updated postscript considering what life after Kensington holds for Harry and Meghan, *Kensington Palace: An Intimate Memoir* from Queen Mary to Meghan Markle offers a rare behind-the-scenes insight into one of Britain's most iconic residences.

The Heir Apparent David Ives, adapted from "Le Légataire universel" by Jean-François Regnard 2015-05-15
Paris, 1708. Eraste, a worthy though penniless young man, is in love with the fair Isabelle, but her forbidding mother, Madame Argante, will only let the two marry if Eraste can show he

will inherit the estate of his rich but miserly Uncle Geronte.

Unfortunately, old Geronte has also fallen for the fair Isabelle, and plans to marry her this very day and leave her everything in his will—separating the two young lovers forever. Eraste's wily servant Crispin jumps in, getting a couple of meddling relatives disinherited by impersonating them (one, a brash American, the other a French female country cousin)—only to have the old man kick off before his will is made! In a brilliant stroke, Crispin then impersonates the old man, dictating a will favorable to his master (and Crispin himself, of course)—only to find that rich Uncle Geronte isn't dead at all and is more than ever ready to marry Isabelle! The multiple strands of the plot are unraveled to great comic effect in the streaming rhyming couplets of French classical comedy, and everyone lives happily, and richly, ever after.

The Expanding News Desert Penelope Muse Abernathy 2018-11-15 This report delves into the implications for communities at risk of losing their primary source of credible news. By documenting the shifting news landscape and evaluating the threat of media deserts, this report seeks to raise awareness of the role interested parties can play in addressing the challenges confronting local news and democracy. The *Expanding News Desert* documents the continuing loss of papers and readers, the consolidation in the industry, and the social, political and economic consequences for thousands of communities throughout the country. It also provides an update on the strategies of the seven large investment firms--hedge and pension funds, as well as private and publicly traded equity groups--that swooped in to purchase hundreds of newspapers in recent years and

explores the indelible mark they have left on the newspaper industry during a time of immense disruption.

Delighting in this lost theatrical form, Carl Grose's demented new play works fast and loose with convention. A black comedy, a psychological thriller and an unrepentant splatterfest, Grand Guignol is a head-spinning, genre-bending phantasmagoria guaranteed to keep you guessing (and wincing) to the very last horror show...

Stress Doppler Echocardiography Steve M. Teague 2011-09-26 For almost 40 years, a small but intense group of cardiovascular investigators have evaluated cardiac performance by measuring the mass, velocity, and acceleration of blood ejected from the left ventricle. These studies reveal that energy is transferred from ventricle to blood very early in systole, and that the left ventricle

is characterized as an impulse generator. Recent explosive developments in Doppler echocardiography have allowed study of the energetics of ventricular contraction through noninvasive acceleration, velocity, and volumetric flow measurements. Compared against reference standards of ejection fraction, dP/dt , and instantaneous pressure gradient across the aortic valve, Doppler acceleration and velocity measurements are highly sensitive to changes in ventricular performance. Most patients seeking cardiovascular care present with coronary artery disease as a chief concern. This book focuses upon identification of coronary disease presence and severity through the evaluation of left ventricular Doppler ejection responses to stress loading. Chapters I through 4 detail basic research on the dynamics of left ventricular ejection in ischemic and nonischemic animal models. Chapters 5 through 13 present clinical correlates of changes in the Doppler systolic ejection pulse during exercise and under pharmacologic stress loading. Angiographic anatomy, thallium perfusion defects, and radionuclear ejection fraction responses serve as reference standards. Chapters 14, 15 and 16 address applications of Doppler echocardiography during the stresses of brief coronary occlusion, myocardial infarction and post infarction recovery, while chapters 17 and 20 illustrate applications of stress Doppler techniques in valvular heart disease.

Vanishing Cornwall Daphne Du Maurier
2016-10-20 FROM THE BESTSELLING

AUTHOR OF REBECCA An eloquent elegy on the past of a county she loved so much - The Times 'There was a smell in the air of tar and rope and rusted chain, a smell of tidal water. Down harbour, around the point, was the open sea. Here was the freedom I desired, long sought-for, not yet known. Freedom to write, to walk, to wander, freedom to climb hills, to pull a boat, to be alone . . . I for this, and this for me.' Daphne du Maurier lived in Cornwall for most of her life. Its rugged coastline, wild terrain and tumultuous weather inspired her imagination, and many of her works are set there, including Rebecca, Jamaica Inn and Frenchman's Creek. In Vanishing Cornwall she celebrates the land she loved, exploring its legends, its history and its people, eloquently making a powerful plea for Cornwall's preservation.
