Progress, Poverty and Exclusion Rosemary Thorp 1998 A comprehensive Statistical Appendix provides regional and country-by-country data in such areas as GDP, manufacturing, sector productivity, prices, trade,

income distribution and living standards."--BOOK JACKET. *Specters of Belonging* Adrián Félix 2018-11-19 As the United States hardens its border with Mexico, how do migrants make transnational claims of citizenship in both nation-states? By enacting citizenship in both countries, Mexican migrants are challenging the meaning of membership and belonging from the margins of both citizenship regimes. With their incessant border-shattering political practices, Mexican migrants have become the embodiment of transnational citizenship on both sides of the divide. Drawing on his experiences leading citizenship classes for Mexican migrants and working with cross-border activists, Adrián Félix examines the political lives (and deaths) of Mexican migrants in *Specters of Belonging*. Tracing transnationalism across the different stages of the migrant political life cycle - beginning with the so-called political baptism of naturalization and ending with the practice by which migrant bodies are repatriated to Mexico for burial after death - Félix reveals the varied ways in which Mexican transnational subjects practice citizenship in the United States as well as Mexico. As such, Félix unearths how Mexican migrants' specters of belonging perennially haunt the political projects of nationalism, citizenship, and democracy on both sides of the border.

The Tipping Point Malcolm Gladwell 2006-11-01 From the bestselling author of *The Bomber Mafia*: discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a

small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world." —Michael Lewis

Climate change: Unpacking the burden on food safety Food and Agriculture Organization of the United Nations 2020-03-01 Climate change is causing unprecedented damage to our ecosystem. Increasing temperatures, ocean warming and acidification, severe droughts, wildfires, altered precipitation patterns, melting glaciers, rising sea levels and amplification of extreme weather events have direct implications for our food systems. While the impacts of such environmental factors on food security are well known, the effects on food safety receive less attention. The purpose of *Climate change: Unpacking the burden on food safety* is to identify and attempt to quantify some current and anticipated food safety issues that are associated with climate change. The food safety hazards considered in the publication are foodborne pathogens and parasites, harmful algal blooms, pesticides, mycotoxins and heavy metals with emphasis on methylmercury. There is also, a dedicated section on the benefits of forward-looking approaches such as horizon

scanning and foresight, which will not only aid in anticipating future challenges in a shifting global food safety landscape, but also help build resilient food systems that can be continually updated as more knowledge is assimilated. By building a more widespread and better understanding of the consequences climate change has on food safety, it is hoped that this document will aid in fostering stronger international cooperation in making our food safer by reducing the global burden of these concerns.

Management of Dyslipidemia Wilbert S. Aronow 2021-07-21
Dyslipidemia is a major risk factor for cardiovascular events, cardiovascular mortality, and all-cause mortality. The earlier in life dyslipidemia is treated, the better the prognosis. The current book is an excellent one on dyslipidemia written by experts on this topic. This book includes 12 chapters including 5 on lipids, 4 on hypercholesterolemia in children, and 3 on the treatment of dyslipidemia. This book should be read by all health care professionals taking care of patients, including pediatricians since atherosclerotic cardiovascular disease begins in childhood.

Goya Janis A. Tomlinson 2002-03-11
Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous *Naked Maja* and *Clothed Maja* are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the

significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

My Broken Language Quiara Alegría Hudes 2021-04-06 GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize-winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. **LONGLISTED FOR THE ANDREW CARNEGIE MEDAL • ONE OF THE BEST BOOKS OF THE YEAR: NPR, New York Public Library, BookPage, and BookRiot • “Quiara Alegría Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories.”—Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights*** Quiara Alegría Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she'd have to get off the stairs and join the dance. She'd have to find her language. Weaving together Hudes's love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multitythic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the

world she loved in all its wild and delicate beauty. the American flag was lowered for the last time at Clark Air Base in the Philippines. This act brought to an end American military presence in the Philippines that extended back over 90 years. It also represented the final act in a drama that began with the initial rumblings in April of that year of the Mount inatubo volcano, located about nine miles to the east of Clark. This book tells the remarkable story of the men and women of the Clark community and their ordeal in planning for and carrying out their evacuation from Clark in face of the impending volcanic activity. It documents the actions of those who remained on the base during the series of Mount Pinatubo' s eruptions, and the packing out of the base during the subsequent months. This is the story of the Ash Warriors, those Air Force men and women who carried out their mission in the face of an incredible series of natural disasters, including volcanic eruption, flood, typhoons, and earthquakes, all of which plagued Clark and the surrounding areas during June and July 1991.

Natural Remedies in the Fight Against Parasites Hanem Khater 2017-07-12 This book emphasizes past and current research efforts about principles of natural control of major parasites affecting humans, animals, and crops. Each chapter is a complete and integrated subject that presents a problem and confers on the safe alternatives to chemicals. This book discusses and updates information about three major topics of natural remedies. The first topic is represented in a chapter outlining important information on biological control of parasites, the second topic is represented in three chapters dealing with botanicals as promising antiparasitic agents, and the last four chapters deal with miscellaneous control strategies against parasites. This easily readable book is designed precisely for students as well as professors linked with the field of parasitic control. We enhanced words with breathing areas in the form of graphical abstracts, figures, photographs, and tables.

The Third Option Miles McPherson 2020-02-25 Miles McPherson, founder of The Rock Church in San Diego, presents "a discussion about race that we desperately need...a must read" (Bishop T.D. Jakes, Senior Pastor, The Potter's House) and argues that we must learn to see people not by the color of their skin, but as God sees them—humans created in the image of God. Pastor Miles McPherson, senior pastor of The Rock Church in San Diego, addresses racial division, a topic many have shied away from, for fear of asking the wrong question or saying the wrong thing. Some are oblivious to the

impact racism has, while others pretend it doesn't exist. Even the church has been affected by racial division, with Sunday now being the most segregated day of each week. Christians, who are called to love and honor their neighbors, have fallen into culture's trap by siding with one group against another: us vs. them. Cops vs. protestors. Blacks vs. whites. Racists vs. the "woke." The lure of choosing one option over another threatens God's plan for unity among His people. Instead of going along with the culture, Pastor Miles directs us to choose the Third Option: honoring the priceless value of God's image in every person we meet. He exposes common misconceptions that keep people from engaging with those of different racial and ethnic backgrounds, and identifies the privileges and pitfalls that we all face. The Third Option challenges us to fully embrace God's creativity and beauty, as expressed in the diversity of His people. By following the steps and praying the prayers outlined in his book, Pastor Miles teaches us how we can all become leaders in unifying our communities, our churches, and the nation.

A Woman First: First Woman Selina Meyer 2019-03-19 A hilarious parody memoir for the beloved Veep character portrayed for seven seasons by Emmy-winner Julia Louis-Dreyfus. Born and raised deep in the American heartland of God-fearing suburban Maryland, young Selina Eaton learned to love her country and her fellow man from her parents, Catherine, a sportswoman, dog lover, and philanthropist, and Gordon, or "Daddy" as she always called him, a businessman and entrepreneur. From an early age, Selina, an active, curious, happy-go-lucky child, showed an uncanny ability to relate to others and to solve their real-world problems with real-world

solutions. In this she was inspired by her idol: feminist, humanitarian, stateswoman, and first lady, Eleanor Roosevelt. Eleanor Roosevelt maintained a lively relationship with many prominent figures of her time, including Adlai Stevenson, John F. Kennedy, Albert Schweitzer, and probably Pablo Casals. She inspired countless women to break out of the established roles for women in society, among them the pioneering aviatrix Amelia Earhart, with whom she flew several times. Dubbed the "Queen of the Air," Amelia Earhart captivated the nation both with her bravery, skill, and daring when flying her planes and when challenging society's hidebound attitudes as to what constituted a proper place for women. America mourned when she disappeared mysteriously somewhere in the Pacific during an attempted around-the-world flight in 1937. Speculation continues to this day as to Amelia's ultimate fate, even as hope has faded that she may yet be found alive. With wit, wisdom, eloquence, and fearless honesty, Selina Meyer reveals for the first time what really goes on in the halls of power, including the ultimate hall, the White House. It's all here: the triumphs, the tragedies, the personalities, and the momentous events that have shaped our times, brought together in a page-turning tale told as only Selina Meyer could tell it. Selina Meyer's compassion, her sense of humor, her grace, and her uncommon willingness to bare her heart make this story revelatory, beautifully rendered, and unlike any other president's memoir ever written. First Woman: A Woman First would be a fitting title for a book about Selina Meyer, Eleanor Roosevelt, or Amelia Earhart, but in this case, it is about Selina Meyer.

Nobodies John Bowe 2008-08-12 Most Americans are shocked to discover that slavery still exists in the United States. Yet 145 years after the Emancipation Proclamation, the CIA estimates that 14,500 to 17,000 foreigners are "trafficked" annually into the United States, threatened with violence, and forced to work against their will. Modern people unanimously agree that slavery is abhorrent. How, then, can it be making a reappearance on American soil? Award-winning journalist John Bowe examines how outsourcing, subcontracting, immigration fraud, and the relentless pursuit of "everyday low prices" have created an opportunity for modern slavery to regain a toehold in the American economy. Bowe uses thorough and often dangerous research, exclusive interviews, eyewitness accounts, and rigorous economic analysis to examine three illegal workplaces where employees are literally or virtually enslaved. From rural Florida to Tulsa, Oklahoma, to the U.S. commonwealth of Saipan in the Western Pacific, he documents coercive and forced labor situations that benefit us all, as consumers and stockholders, fattening the profits of dozens of American food and clothing chains, including Wal-Mart, Kroger, McDonald's, Burger King, PepsiCo, Del Monte, Gap, Target, JCPenney, J. Crew, Polo Ralph Lauren, and others. In this eye-opening book, set against the everyday American landscape of shopping malls, outlet stores, and Happy Meals, Bowe reveals how humankind's darker urges remain alive and well, lingering in the background of every

transaction—and what we can do to overcome them. Praise for *Nobodies*: “Investigative, immersion reporting at its best . . . Bowe is a master storyteller whose work is finely tuned and fearless.” —USA Today “A brilliant and readable tour of the modern heart of darkness, *Nobodies* takes a long, hard look at what our democracy is becoming.” —Thomas Frank, author of *What’s the Matter with Kansas?* “Bowe dramatizes in gripping detail these stolen lives.” —O: The Oprah Magazine “The vividness of Bowe’s local stories might make you think twice before reaching for that cheap fruit or pair of discount socks.” —Condé Nast Portfolio NAMED ONE OF THE TWENTY BEST BOOKS OF THE YEAR BY THE VILLAGE VOICE

The Book of Honor Ted Gup 2001-05-01 A national bestseller, this extraordinary work of investigative reporting uncovers the identities, and the remarkable stories, of the CIA secret agents who died anonymously in the service of their country. In the entrance of the CIA headquarters looms a huge marble wall into which seventy-one stars are carved—each representing an agent who has died in the line of duty. Official CIA records only name thirty-five of them, however. Undeterred by claims that revealing the identities of these “nameless stars” might compromise national security, Ted Gup sorted through thousands of documents and interviewed over 400 CIA officers in his attempt to bring their long-hidden stories to light. The result of this extraordinary work of investigation is a surprising glimpse at the real lives of secret agents, and an unprecedented history of the most compelling—and controversial—department of the US government.

Twenty Buildings Every Architect Should Understand Simon Unwin 2010-02-25 Have you ever wondered how the ideas behind the world’s greatest architectural designs came

about? What process does an architect go through to design buildings which become world-renowned for their excellence? This book reveals the secrets behind these buildings. He asks you to ‘read’ the building and understand its starting point by analyzing its final form. Through the gradual revelations made by an understanding of the thinking behind the form, you learn a unique methodology which can be used every time you look at any building.

Anglos and Mexicans in the Making of Texas, 1836–1986

David Montejano 2010-07-05 “A benchmark publication . . . A meticulously documented work that provides an alternative interpretation and revisionist view of Mexican-Anglo relations.” —IMR (International Migration Review) Winner, Frederick Jackson Turner Award, Organization of American Historians American Historical Association, Pacific Branch Book Award Texas Institute of Letters Friends of The Dallas Public Library Award Texas Historical Commission T. R. Fehrenbach Award, Best Ethnic, Minority, and Women’s History Publication Here is a different kind of history, an interpretive history that outlines the connections between the past and the present while maintaining a focus on Mexican-Anglo relations. This book reconstructs a history of Mexican-Anglo relations in Texas “since the Alamo,” while asking this history some sociology questions about ethnicity, social change, and society itself. In one sense, it can be described as a southwestern history about nation building, economic development, and ethnic relations. In a more comparative manner, the history points to the familiar experience of conflict and accommodation between distinct societies and peoples throughout the world. Organized to describe the sequence of class orders and the corresponding change in Mexican-Anglo

relations, it is divided into four periods, which are referred to as incorporation, reconstruction, segregation, and integration. "The success of this award-winning book is in its honesty, scholarly objectivity, and daring, in the sense that it debunks the old Texas nationalism that sought to create anti-Mexican attitudes both in Texas and the Greater Southwest." –Colonial Latin American Historical Review "An outstanding contribution to U.S. Southwest studies, Chicano history, and race relations . . . A seminal book." –Hispanic American Historical Review

Freedom in the World 2012 Freedom House 2012 A survey of the state of human freedom around the world investigates such crucial indicators as the status of civil and political liberties and provides individual country reports.

Freedom in the World 1997-1998 Roger Kaplan 1998-04 The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries. Throughout the year. Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious

figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year. Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare, regional newspapers and magazines. This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of Freedom in the World is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Charles Graybow.

Multi-Objective Optimization using Evolutionary Algorithms Kalyanmoy Deb 2001-07-05 Evolutionary algorithms are relatively new, but very powerful techniques used to find solutions to many real-world search and optimization problems. Many of these problems have multiple objectives, which leads to the need to obtain a set of optimal solutions, known as effective solutions. It has been found that using evolutionary algorithms is a highly effective way of finding multiple effective solutions in a single simulation run.

Comprehensive coverage of this growing area of research Carefully introduces each algorithm with examples and in-depth discussion Includes many applications to real-world problems, including engineering design and scheduling Includes discussion of advanced topics and future research Can be used as a course text or for self-study Accessible to those with limited knowledge of classical multi-objective optimization and evolutionary

algorithms The integrated presentation of theory, algorithms and examples will benefit those working and researching in the areas of optimization, optimal design and evolutionary computing. This text provides an excellent introduction to the use of evolutionary algorithms in multi-objective optimization, allowing use as a graduate course text or for self-study.

Freedom in the World 2006 Freedom House 2006 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic

development.
